GUIDANCE FOR AUTHORS

Aims and Scope *Biodiversitas*, *Journal of Biological Diversity* or *Biodiversitas* encourages submission of manuscripts dealing with all aspects of biodiversity, including plants, animals, and microbes at the level of the gene, species, and ecosystem. Ethnobiology papers are also considered.

Article types The journal seeks original full-length: (i) **Research papers**, (ii) **Reviews**, and (iii) **Short communications**. Original research manuscripts are limited to 8,000 words (including tables and figures) or proportional to articles in this publication number. Review articles are also limited to 8,000 words, while Short communications should be less than 2,500 words, except for pre-study.

Submission: The journal only accepts online submissions through the open journal system (<https://smujo.id/biodiv/about/submissions>) or, for login problems, email the editors at unsjournals@gmail.com (or editors@smujo.id). Submitted manuscripts should be the original works of the author(s). Please ensure that the manuscript is submitted using the template, which can be found at (<https://biodiversitas.mipa.uns.ac.id/D/template.doc>). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, and a paragraph describing the claimed novelty of the findings versus current knowledge. Please also provide a list of five potential reviewers in your cover letter. They should come from outside your institution and better from three different countries. Submission of a manuscript implies the submitted work has not been published (except as part of a thesis or report, or abstract) and is not being considered for publication elsewhere. When a group writes a manuscript, all authors should read and approve the final version of the submitted manuscript and its revision; and agree on the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis, drafting the manuscript, and correcting the revision. All authors must be responsible for the work's quality, accuracy, and ethics.

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. For the new invention, authors must manage its patent before publication.

Open Access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC-SA.

Acceptance Only articles written in US English are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (double-blind review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscripts will be rejected if the content does not align with the journal scope, does not meet the standard quality, is in an inappropriate format, or contains complicated grammar, dishonesty (i.e., plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and significance. **Uncorrected proofs** will be sent to the corresponding author by system or email as .doc or .docx files for checking and correcting typographical errors. The corrected proofs should be returned in 7 days to avoid publication delays. The accepted papers will be published online in chronological order at any time but printed at the end of each month.

A charge Authors are charged USD 400 (IDR 6,000,000). Additional charges may be billed for language improvement, USD 75-150 (IDR 1,000,000-2,000,000). **Reprints** The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by email and sending back the uncorrected proofs.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering sizes can be applied in presenting tables and figures (9 pt). Word processing program or additional software can be used; however, it must be PC compatible, use the template, and be Microsoft Word based (.doc or .rtf; not .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italics, except in italicized sentences. Scientific names (genus, species, author) and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. The genus name can be shortened after the first mention, except in early sentences, or where this may generate confusion; name of the author can be eliminated after the first mention. For example, *Rhizopus oryzae* L. UICC 524 can be written hereinafter as *R. oryzae* UICC 524. Using trivial names should be avoided. **Biochemical and chemical nomenclature** should follow the order of the IUPAC-IUB. For DNA sequences, it is better to use Courier New font. Standard chemical abbreviations can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurements** should use IS denominations, and other systems should use equivalent values with the denomination of IS mentioned first. A dot should not follow abbreviations like g, mg, mL, etc. Minus index (m⁻², L⁻¹, h⁻¹) suggested being used, except in things like "per-plant" or "per-plot." **Mathematical equations** can be written down in one column with text; in that case, they can be written separately. **Numbers** one to ten are written in words, except if it relates to measurement, while values above them are written in number, except in early sentences. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent." Avoid expressing ideas with complicated sentences and verbiage/phrasing, and use efficient and effective sentences.

The title of the article should be written in compact, clear, and informative

sentence, preferably not more than 20 words. Name of author(s) should be completely written, especially for the first and the last name. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. We choose local names in Bahasa Indonesia for universities in Indonesia. The mention of "strata" program, should be avoided. Manuscript written by a group, author for correspondence along with address is required (marked with "¶"). **The title page** (first page) should include title of the article, full name(s), institution(s) and address(es) of the author(s); the corresponding authors detailed postage and e-mail addresses (P), and phone and fax numbers (O).

Abstract A concise abstract is required (about 200 words). The abstract should be informative and state briefly the aim of the research, the principal results and major conclusions. An abstract is often presented separately from the article, thus it must be able to stand alone (completely self-explanatory). References should not be cited, but if essential, then cite the author(s) and year(s). Abbreviations should be avoided, but if essential, they must be defined at their first mention. **Keywords** are about five words, covering scientific and local name (if any), research themes, and special methods used; and sorted from A to Z. **Abbreviations** (if any): All important abbreviations must be defined at their first mention there. **Running title** is about five words.

Introduction is about 600 words, covering the aims of the research and provide an adequate background, avoiding a detailed literature survey or a summary of the results. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for a manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgements** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of a maximum of three pages should be clearly presented. The title of a picture is written down below the picture, while the title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; the chart is preferred to use black and white images. The author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned the source. Author is suggested referring to Wikipedia for international boundaries and Google Earth for satellite imagery. If not specifically mentioned, it is assumed to refer to these sources. **There is no appendix**, all data or data analysis is incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Preferably 80% of it comes from scientific journals published in the last 10 years. In the text, give the author names followed by the year of publication and arrange from oldest to newest and from A to Z; in citing an article written by two authors, both of them should be mentioned; however, for three and more authors only the first author is mentioned followed by et al. For example, Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation should be avoided, as shown with the word "cit." Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/2-22661-LTWA-online.php). Please include DOI links for journal papers. The following examples are for guidance.

Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning; a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158. DOI: 10.13057/biodiv/d070213.

The usage of "et al." in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. *N Engl J Med* 965: 325-329. DOI: 10.1007/s002149800025.

Proximate and phytochemical analysis of <i>Acanthus ilicifolius</i> hot water extract from three different growing locations	1642-1652
RIDWANTI BATUBARA, T. ISMANELLY HANUM, ODING AFFANDI, MIMI NURMINAH, INA WINARNI, SALEHA HANUM, ORYZA YULIA YASMIN, SHAFIRA CHAIRUNNISA CHERY, AFIFUDDIN DALIMUNTE	
Characterization of essential oils and biological activities of <i>Etligeria</i> spp. from different agroecology in Southeast Sulawesi, Indonesia	1653-1665
SELFYANA AUSTIN TEE, SYAMSU ALAM, YURIKA SASTYARINA, AGUNG WIBAWA MAHATVA YODHA, REYMON, MUH. AZDAR SETIAWAN, MUSDALIPAH,	
16S rRNA metagenomic analysis of the Asiatic worker honeybee (<i>Apis cerana</i>) gut microbiome from an apiary in Bandung, Indonesia	1666-1674
ROSELINA DWIYANTI PUTRI, DIKSON, HANS VICTOR, ASTIA SANJAYA, REINHARD PINONTOAN	
Morphological patterns of oblong slipmouth <i>Photolateralis stercorarius</i> populations in the Makassar Strait, Indonesia	1675-1690
MOH. TAUHID UMAR, SHARIFUDDIN BIN ANDY OMAR, FAISAL AMIR, ANDI ALIAH HIDAYANI, ANDI PARENRENGI, ABIGAIL MARY MOORE	
Gross morphology and osteometry of the ribs of Etawah crossbred goats	1691-1697
SUHARSONO, YENI DHAMAYANTI, HANA ELIYANI, SARMANU, LINTANG WINANTYA FIRDAUSY, SALIPUDIN TASIL MASLAMAMA, MUHAMMAD THOHAWI ELZIYAD PURNAMA	
Soil arthropods and natural enemies' abundances in broccoli crops treated with insecticides	1698-1705
MARIA HEVIYANTI, DADANG, DEWI SARTIAMI, R. YAYI MUNARA KUSUMAH, PURWANTININGSIH	
Correlations between human-modified landscape structure and bird diversity in Paseh Sub-district, Sumedang District, Indonesia	1706-1719
SUSANTI WITHANINGSIH, MUHAMAD GALIH RAMDHANI, FIRMAN HADI, PARIKESIT	
Implication of microplastic presence in sediment and blood clams <i>Anadara granosa</i> (Linnaeus 1758) (Mollusca: Bivalvia) in the Musi Estuary, Indonesia	1720-1734
M. AKBAR RAHMAN, ROZIRWAN, WIKE EKA AYU PUTRI, GUSTI DIANSYAH, MELKI, ICA DELYA, REDHO YOGA NUGROHO	
Screening of antibacterial activity of Crown-of-thorns starfish (<i>Acanthaster</i> spp.) extracts using modified microtiter-plate resazurin assay	1735-1742
SHARON ROSE M. TABUGO, TRICKSIE P. BALATERO , RODELYN M. DALAYAP	
Composting domestic sewage using <i>Trichoderma</i> isolates were from agricultural soils	1743-1753
NGUYEN PHUONG THUY, NGUYEN NGOC TRAI	
Diversity of <i>Vachellia nilotica</i> rhizosphere bacteria in the savanna of Baluran National Park, Indonesia and their potential for hydrolytic enzyme production	1754-1767
NI'MATUZAHROH, MOCH. AFFANDI, RICO RAMADHAN, FATIMAH, AGUS SUPRIYANTO, SALAMUN, TRI NURHARIYATI, ALMANDO GERALDI, JUNAIRIAH, JOHAN SETIAWAN, BRIGITA NUR DIYAN AGUSTIANA, ARSY HABI PRIYATAMA, KIRANA ATMANINDYA, DELA DWI ALAWIYAH, ELVIS PERDANA PUTRA, ANA MARIATUL KHIFTIYAH, SILVIA KURNIA SARI, CHRISTOPHER CLEMENT	

Morphological diversity and genetic homogeneity in <i>Spondylus squamosus</i> from Lianga Bay, Surigao del Sur, Philippines FABIO JR. C. RUAZA	1768-1776
Analyses of ecosystem productivity using field measurement and remote sensing, and microalgae diversity at Mayangan and Sendang Biru Beaches, East Java, Indonesia UMI ZAKIYAH, ALIVIA SALSABILA KUSUMA TANYA SANTOSO, ZULKISAM PRAMUDIA, TIA DWI IRAWANDANI, DISTA ERINTIKA	1777-1788
Biodiversity and distribution of freshwater microalgae from the black-water ecosystem of Rungan River, Central Kalimantan, Indonesia LISWARA NENENG, KIKI LOUISA, YULIANA, ZAHROTUN NAFISAH, DIAH RADINI NOERDJITO	1789-1798
Identification of rhizobacteria isolate from Bali Barat National Park, Indonesia and the potential as biological agents against soybean seed-borne pathogen KHAMDAN KHALIMI, IDA BAGUS GEDE PRANATAYANA, KETUT AYU YULIADHI, I WAYAN DIKSA GARGITA, I KADEK WISMA YUDHA	1799-1806
Morphological diversity of fish size and otolith dimension of the protandrous hermaphroditic fish <i>Eleutheronema tetradactylum</i> from Pattani Bay, Thailand TEUKU HARIS IQBAL, SUKREE HAJISAMAE, SOFIYUDIN MAAE, ILHAM ZULFAHMI	1807-1815
Isolation and characterization of endophytic fungi and their antagonistic activity against <i>Fusarium</i> spp., the causal agent of yellow disease in <i>Piper nigrum</i> SOFIAN, SUYADI, NURHASANAH, SOPIALENA	1816-1826
Lactic acid bacteria isolated from the digestive tract of spiny lobsters (<i>Panulirus homarus</i>) and their potency as probiotics FATURRAHMAN, KIKI RIZKI AULIYAH, LARAS ALISHIA JUANDA, TRI WAHYU SETYANINGRUM, SARKONO, BAMBANG FAJAR SURYADI, FARIQ AZHAR, BAYU PRIYAMBODO, WANDA QORIASMADILLAH	1827-1835
Reef fish resilience following a significant earthquake disaster in the Nias Islands, Indonesia RISANDI DWIRAMA PUTRA, RIKOH MANOGAR SIRINGORINGO, MUHAMMAD ABRAR, NI WAYAN PURANAMASARI, DIETRIECH GEOFFREY BENGEN, NEVIATY PUTRI ZAMANI, BEGINER SUBHAN, , LUDI PARWADANI AJI, GIYANTO, INDRA PUTRA ALMANAR, EFRIN ANTONIA DOLLU	1836-1845
Freshwater copepods in the tributaries of the lower Mekong River basin in Thailand KAMONWAN KOOMPOT, SANTI WATIOYRAM	1846-1860
Metagenomic investigation of the fecal microbiota in Lakor goats of different sexes with a basic diet of field grass INSUN SANGADJI, RONY MARSYAL KUNDA, PRASETYARTI UTAMI	1861-1869
Analysis of similarity and dissimilarity of combining ability and heterosis for melon (<i>Cucumis melo</i> L.) fruit characters using multi-environments HELFI EKA SAPUTRA, MUHAMAD SYUKUR, WILLY BAYUARDI SUWARNO, SOBIR	1870-1880
Various secondary metabolites of endophytic fungi induced by a newly modified medium and their insecticidal activities JELLY MILINIA PUSPITA SARI, SITI HERLINDA, ELFITA, SUWANDI SUWANDI	1881-1890
Community status of Giant clam (<i>Tridacnidae</i>) on Bira of Seribu Islands, Indonesia RATNA KOMALA, DIANA VIVANTI SIGIT, EKA PUTRI AZRAI	1891-1897
Assessing the economic value of a seagrass ecosystem in Southern Cebu, Philippines JAN AXEL B. INOCENTES, KHERSTINE D. ESCALANTE, ANGELINE I. GINOO, GODWIN T. PRADO, GRACIELA MAE L. UY, ARABELLE E. JUSTOL, JANEYLYN L. FERNANDEZ, JELYN O. GACANG, CATHERINE D. LACORTE, SYLVESTER T. CORTES, ZERRY AYN Z. RETUBADO, ANNE S. LORCA, JOSEPH JOEL N. ALMAGRO	1898-1912
Molecular detection of <i>Dorylaimus stagnalis</i> (Durjan, 1845), in the rhizosphere of soybean plants in Jember District, Indonesia ANKARDIANSYAH PANDU PRADANA, ZIDNA NURUL IZZATIKA, HARDIAN SUSILO ADDY	1913-1919

Morphological characterization and clustering analysis of three local jackfruit cultivars (<i>Artocarpus heterophyllus</i>) in Lamongan District, East Java, Indonesia LISA ROHMATUL ULLAH, PUTUT RAKHMAD PURNAMA, WISANTI	1920-1928
The bushmeat trade in traditional markets in North Sulawesi, Indonesia TILTJE ANDRETHA RANSALELEH, INDYAH WAHYUNI, MERRI DIANA ROTINSULU, MEIS JACINTA NANGOY, AGUSTINUS LOMBOAN, JANE ONIBALA, SYLVIA LAATUNG, LIDYA SIULCE KALANGI, SURYO SAPUTRO, SIGIT WIANTORO	1929-1939
Exploration and selection of native macrofungi with heavy metal tolerance for Jakarta Bay bioremediation NOVERITA, NUNIEK INA RATNANINGTYAS, HERNAYANTI, NURAENI EKOWATI, SRI LESTARI	1940-1955
Enhanced growth and nutrient uptake of <i>Pterocarpus indicus</i> in asphalt post-mining soil media using local arbuscular mycorrhizal fungi HUSNA, FAISAL DANU TUHETERU, WIWIN RAHMAWATI NURDIN, RAMADIN, ASRIANTI ARIF	1956-1963
Characterization of nitrogen-fixing bacteria isolated from strawberry rhizosphere and their potency to increase seedling growth FEBBY FITRIYANI, REGINAWANTI HINDERSAH, RINA DEVNITA, SYARIFUL MUBAROK, MASAKAZU NAKAYAMA	1964-1974
Squalene-producing thraustochytrids isolated from mangrove habitats in the Sidoarjo District, Indonesia, and the antioxidant activity of the isolated strain NASRULLAH BAI ARIFIN, MUHAMMAD FAKHRI, ATING YUNIARTI, MUHAMMAD MUSA, ANIK MARTINAH HARIATI	1975-1982
Abundance of fungi on rice straw compost and husk biochars by in-vitro heavy metals mycosorbent NURUL PUSPITA PALUPI, RORO KESUMANINGWATI, ARYA BAYA SRIPATI, ESTI HANDAYANI HARDI, FAHRUNSYAH, DWI ERMAWATI RAHAYU, RUDY AGUNG NUGROHO, SURYA DARMA, SURIA DARMA IDRIS	1983-1990
First record on the freshwater shrimp and its ecology in Weh Island, Indonesia DEDI FAZRIANSYAH PUTRA, MUHAMMADAR ABDULLAH ABBAS, TONGKU NIZWAN SIREGAR, DAISY WOWOR	1991-2001
Microplastic pollution in the Belawan Estuary, Indonesia based on aquatic biota and polymer characterization AHMAD MUHTADI, RUSDI LEIDONALD, NUR MAIYAH, MOHD YUSOFF ISHAK	2002-2010
Genome analysis of novel <i>Salmonella</i>-infecting bacteriophage ϕSen-NF RISK A AYU FEBRIANTI, ERLIA NARULITA, FADHILAH AYU SAVITRI, AGUNG HARIS WIDIANTO, HARDIAN SUSILO ADDY, ERMA SULISTYANINGSIH, KUSWATI KUSWATI, BINAR RAHMA UTAMI	2011-2019
